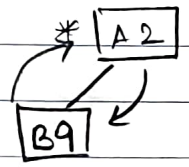
ASSIGNMENT - 3
Part - 3.

Daljeet Singh
ACS- 2947 - U02
3169763

① Adding 10 values in the heap

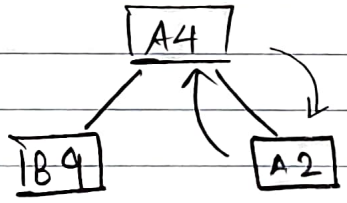
B9 is added.

②



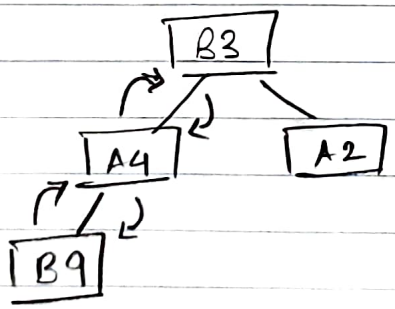
A2 added but upheld because it has more priority.

③



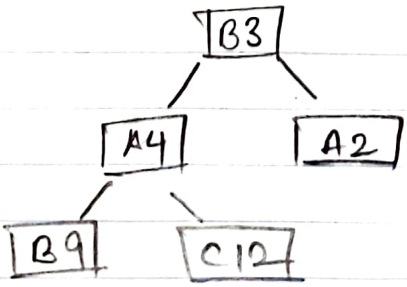
A2 & A4 swaped because it has more priority.

④.



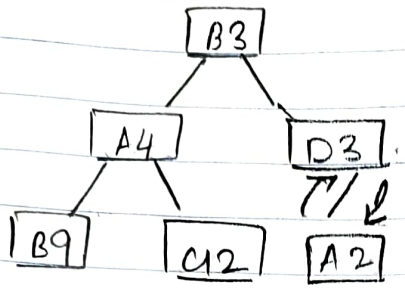
B3 is swapped twice with A4 & B9 because it has more priority.

⑤



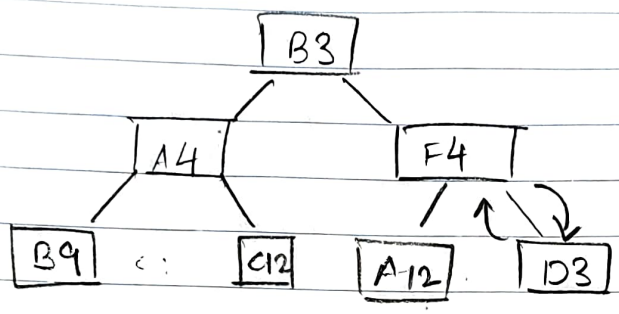
C12 is added and there is no swap because it has lower priority.

(6)



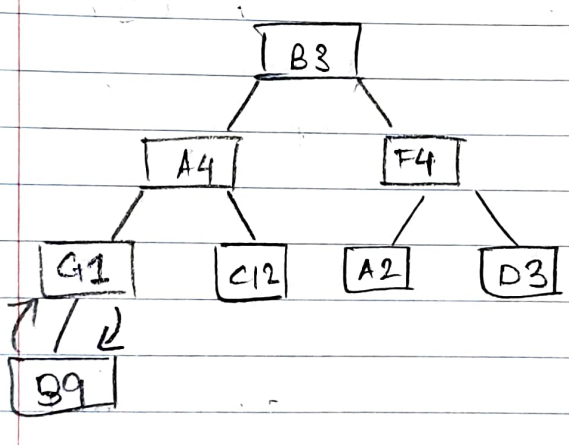
Because ~~A~~ D3 has more priority so it swap with A2

(7)



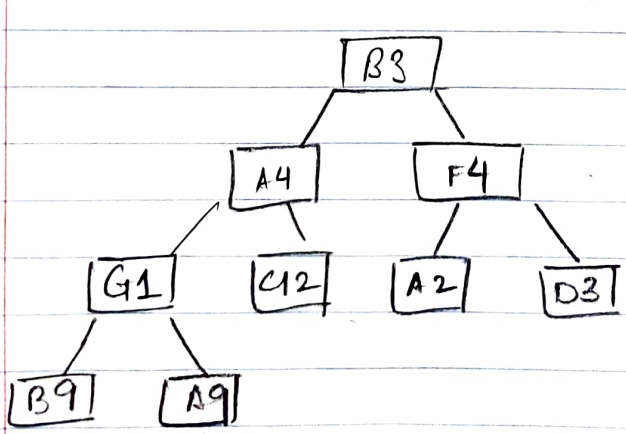
F4 has more priority, therefore it swaps.

(8)



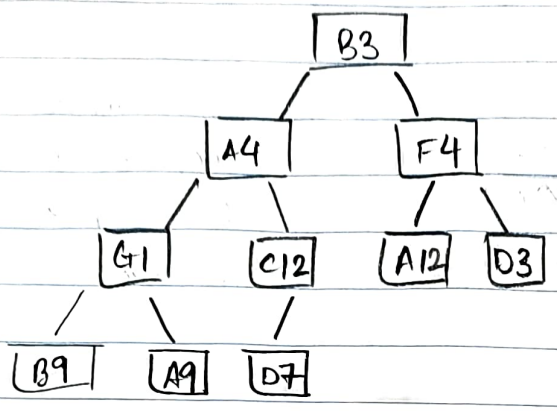
G1 added and upheaped because it has more priority.

(9)



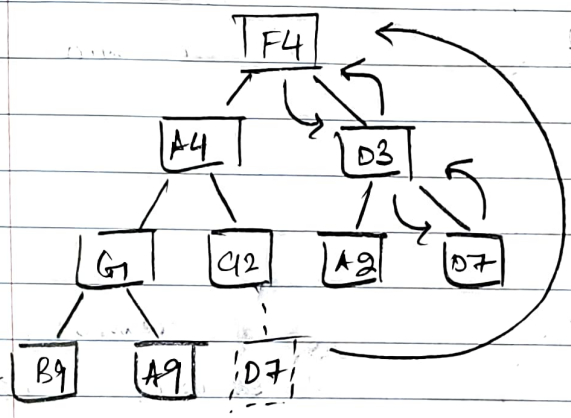
A9 added and remain same

(10)

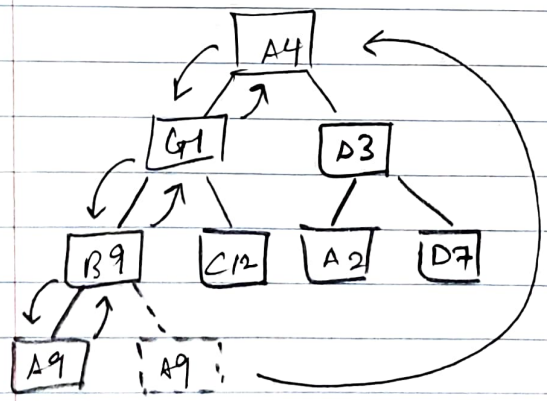


D7 added and remain at same position.

→ REMOVING 5 values from the heap →



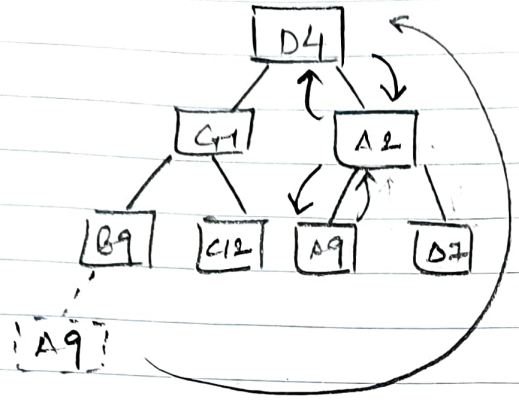
B3 is removed
Replaced by D7
D7 swap by F4
D7 swap by D3.



F4 replaced by A9
A9 swap by A4
G1 swap by A4
A9 swap by B9

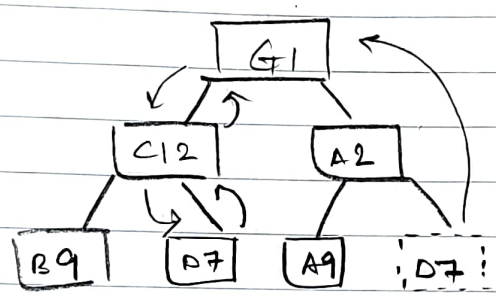
A4

(3)



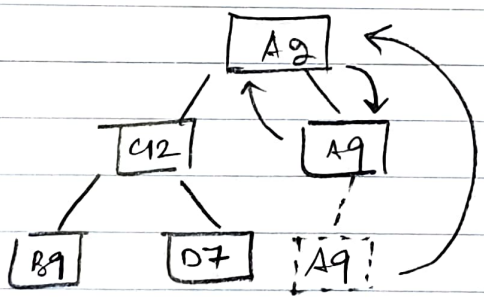
A4 removed &
replace by A9
A9 swap with D4
A9 swap with A2.

(4)



D3 removed &
replaced by D7
D7 swap with C12

(5)



G1 is removed
A9 swaped by A2.
